INDEPENDENT AUDITORS' REPORT

The Board of Directors
Laguna Beach County Water District
Laguna Beach, California

Report on the Financial Statements

We have audited the accompanying financial statements of the Laguna Beach County Water District (the District) as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and the State Controller's Minimum Audit Requirements for California Special Districts. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Offices located in Orange and San Diego Counties

Opinion

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the financial position of the Laguna Beach County Water District as of June 30, 2018 and the respective changes in financial position and cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Notes 1e and 8 to the financial statements, the District adopted Governmental Accounting Standards Board's Statement No. 75, *"Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions"*, which required retrospective application resulting in a reduction of previously reported net position. Our opinion is not modified with respect to this matter.

Other Matter

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the schedule of proportionate share of the net pension liability, the schedule of contributions - defined benefit pension plan, and the schedule of changes in the net OPEB liability and related ratios, identified as required supplementary information (RSI) in the accompanying table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the RSI in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during the audit of the basic financial statements. We do not express an opinion or provide any assurance on the RSI because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 26, 2018 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

White Nelson Diehl Evans LLP

Irvine, California
October 26, 2018

This section of the District's annual financial report presents our analysis of the District's financial performance during the fiscal year that ended on June 30, 2018. Please read it in conjunction with the financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

Fiscal Year 2018

- The District's net position increased by $1,304,375 or 2.06 percent.
- During the year the District's total revenues increased by $1,301,771 or 9.91 percent, and expenses increased by $847,968 or 6.90 percent.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of two parts: Management's Discussion and Analysis and the Financial Statements. The Financial Statements also include notes that explain in more detail some of the information in the financial statements.

REQUIRED FINANCIAL STATEMENTS

The Financial Statements of the District report information about the District using accounting methods similar to those used by private sector companies. These statements offer short-term and long-term financial information about its activities. The Statement of Net Position includes all District investments in resources (assets) and the obligations to creditors (liabilities). It also provides the basis for computing rate of return, evaluating the capital structure of the District and assessing the liquidity and financial flexibility of the District. All current year's revenues and expenses are accounted for in the Statement of Revenues, Expenses, and Changes in Net Position. This statement measures the success of the District's operations over the past year and can be used to determine whether the District has successfully recovered all its costs through its user fees and other charges, profitability, and credit worthiness. The final required financial statement is the Statement of Cash Flows. The primary purpose of this statement is to provide information about the District's cash receipts and cash payments during the reporting period. The Statement of Cash Flows reports cash receipts, cash payments, and net changes in cash resulting from operations, investing, and financing activities and provides answers to such questions as where did cash come from, what was cash used for, and what was the change in cash balance during the reporting period.

FINANCIAL ANALYSIS OF THE DISTRICT

Our analysis of the District begins on page 10 of the Financial Statements. One of the most important questions asked about the District's finances is "Is the District as a whole better off or worse off as a result of the year's activities?" The Statement of Net Position, and the Statement of Revenues, Expenses and Changes in Net Position report information about the District's activities in a way that will help answer this question. These two statements report the net position of the District and changes in them. You can think of the District's net position - the difference between assets and liabilities - as one way to measure financial health or financial position. Over time, increases or decreases in the District's net position are one indicator of whether its financial health is improving or deteriorating. However, you will need to consider other nonfinancial factors such as changes in economic conditions, population growth, zoning and new or changed government legislation.

NET POSITION

To begin our analysis, a summary of the District's Statement of Net Position is presented in Table 1.

TABLE 1
Condensed Statements of Net Position

	Fiscal Year 2018	Fiscal Year 2017	Dollar Change
Assets:			
Current and other assets	$ 18,454,350	$ 18,194,234	$ 260,116
Capital assets	54,963,141	54,535,382	427,759
Total Assets	73,417,491	72,729,616	687,875
Deferred Outflows of Resources	1,905,412	1,343,991	561,421
Liabilities:			
Current liabilities	1,881,191	2,255,807	(374,616)
Noncurrent liabilities	8,154,908	8,058,228	96,680
Total Liabilities	10,036,099	10,314,035	(277,936)
Deferred Inflows of Resources	509,468	471,633	37,835
Net Position:			
Net investment in capital assets	53,103,141	52,055,382	1,047,759
Unrestricted	11,674,195	11,417,579	256,616
Total Net Position	$ 64,777,336	$ 63,472,961	$ 1,304,375

NET POSITION (CONTINUED)

As can be seen from the Table 1, net position increased by $1,304,375 from fiscal year 2017 to 2018. Looking more carefully at the table you can see that Total Assets increased $687,875 mainly due to capital projects, such as reservoir and mainline improvements and the final implementation of the Advanced Metering Infrastructure (AMI) program, completed during the year and being added to the District's fixed asset schedule. In addition, total liabilities decreased $277,936 primarily due to a reduction in the District's Accounts Payable in fiscal year 2018.

Unrestricted Net Position (those that can be used to finance day-to-day operations) increased by $256,616 due to additional revenues (largely non-operating revenues) deposited into the District's investment accounts. These actions resulted in an increase of $1,047,759 in Net Investment in Capital Assets.

TABLE 2
Condensed Statements of Revenues,
Expenses and Changes in Net Position

	Fiscal Year 2018	Fiscal Year 2017	Dollar Change
Revenues:			
Operating revenues	$ 11,007,395	$ 9,566,741	$ 1,440,654
Nonoperating revenues	3,426,280	3,565,163	(138,883)
Total Revenues	14,433,675	13,131,904	1,301,771
Expenses:			
Depreciation	2,270,789	2,045,496	225,293
Other operating expenses	10,858,511	10,235,836	622,675
Total Expenses	13,129,300	12,281,332	847,968
Change in Net Position	1,304,375	850,572	453,803
Beginning Net Position	63,472,961	63,287,939	185,022
Restatement for GASB 75	-	185,022	(185,022)
Ending Net Position	$ 64,777,336	$ 63,472,961	$ 453,803

A closer examination of the source of changes in net position reveals that the District's operating revenues increased by $1,440,654 in fiscal year 2018 primarily due to a previously-approved customer rate increase effective January of 2018. Non-operating revenues decreased by $138,883 in fiscal year 2018 due to a decrease in the fair market value of District investments (corresponding with an increase in rates in the overall bond market). Operating costs (exclusive of depreciation) increased by $622,675 in fiscal year 2018 due to increases in water costs, materials and supplies costs, and staff labor and benefits.

BUDGETARY HIGHLIGHTS

TABLE 3
Fiscal Year 2018 Actual vs. Fiscal Year 2018 Budget

	Fiscal Year 2018		
	Actual	Budget	Variance
Revenues:			
Operating revenues	$ 11,007,395	$ 10,387,940	$ 619,455
Nonoperating revenues	3,426,280	3,318,720	107,560
Total Revenues	14,433,675	13,706,660	727,015
Expenses:			
Operating Expenses:			
Water purchased	3,064,794	2,921,010	(143,784)
Source of supply	128,769	161,360	32,591
Pumping	675,501	650,920	(24,581)
Transmission and distribution	2,889,544	2,945,070	55,526
Customer service	579,025	555,260	(23,765)
General and administrative	3,258,710	2,731,460	(527,250)
Other operation and maintenance	262,168	237,980	(24,188)
Depreciation	2,270,789	-	(2,270,789)
Total Expenses	13,129,300	10,203,060	(2,926,240)
Change in Net Position	$ 1,304,375	$ 3,503,600	$ (2,199,225)

As Table 3 shows, the actual change in net position is $2,199,225 less than the budgeted change in net position. The difference was primarily due to the fact that the District did not budget for depreciation.

CAPITAL ASSETS AND LONG-TERM LIABILITY ADMINISTRATION

CAPITAL ASSETS

At the end of fiscal year 2018, the District had invested approximately $102 million in a broad range of infrastructure as shown in Table 4.

TABLE 4
Capital Assets

	Fiscal Year 2018	Fiscal Year 2017	Dollar Change
Capital Assets:			
Land and land rights	$ 4,517,179	$ 4,517,179	$ -
Source of supply plant	9,897,089	9,897,089	-
Pumping plant	6,682,493	6,590,027	92,466
Transmission and distribution system	67,317,862	62,202,772	5,115,090
General plant and equipment	12,629,902	12,025,315	604,587
Construction in progress	822,078	3,935,673	(3,113,595)
Total Capital Assets	101,866,603	99,168,055	2,698,548
Less accumulated depreciation	(46,903,462)	(44,632,673)	(2,270,789)
Net Capital Assets	$ 54,963,141	$ 54,535,382	$ 427,759

The major capital asset additions for the fiscal year 2018 were the water quality management system (RMS), transmission and distribution system improvements which included pipe, service line, fire hydrant, valve and meter replacements, and the final phase of implementation of the District-wide Advanced Metering Infrastructure (AMI) program.

Additional information on the District's capital assets can be found in Note 4 to the financial statements on page 28 of this report.

LONG-TERM LIABILITY ADMINISTRATION

Over the next three years, the District owes the Orange County Water District a total of $1,860,000 for the right to produce 2,025 acre feet of ground water annually. The original term and amount of the rights acquisition was five years and $3,100,000, respectively. The District made its first annual payment of $620,000 in fiscal year 2017.

Additional information on the District's water right fee payable can be found in Note 9 to the financial statements on page 40 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The District's Board of Directors and management considered many factors when setting the fiscal year 2018 budget, user fees, and charges. The District tries to balance revenues with operating expenses that have increased due to factors such as the availability of water, cost-of-water, water quality requirements, staffing and benefits.

CalPERS plan assets value continues to be impacted thus causing employers' contribution rates to fluctuate. For fiscal year 2018, the District's contribution rate included a cost rate of 8.921% for Classic members, plus a $220,039 payment toward the District's unfunded liability (Classic members), and a cost rate of 6.533% for PEPRA members, plus a $138 payment towards the District's unfunded liability (PEPRA members).

These indicators were taken into consideration when adopting the District's budget for fiscal year 2019. The budget has been structured to contain costs, but at the same time, continue the District's philosophy of providing the highest level of service.

TABLE 5
Fiscal Year 2018 Actual vs. Fiscal Year 2019 Budget

	Fiscal Year 2018 Actual	Fiscal Year 2019 Budget	Variance
Revenues:			
Operating revenues	$ 11,007,395	$ 11,416,020	$ 408,625
Nonoperating revenues	3,426,280	3,547,630	121,350
Total Revenues	14,433,675	14,963,650	529,975
Expenses:			
Depreciation	2,270,789	-	2,270,789
Other operating expenses	10,858,511	10,864,350	(5,839)
Total Expenses	13,129,300	10,864,350	2,264,950
Change in Net Position	1,304,375	4,099,300	2,794,925
Beginning Net Position	63,472,961	64,777,336	1,304,375
Ending Net Position	$ 64,777,336	$ 68,876,636	$ 4,099,300

NOTE 1 - DESCRIPTION OF REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Reporting Entity

The Laguna Beach County Water District (the District) was incorporated in 1925 under the County Water District Act of the State Water Code and is the second oldest operating district of its type in California. The District is governed by the publicly elected Laguna Beach City Council members, serving as the District's Board of Directors.

In 1943, the District started purchasing 100 percent of its water supply from Colorado River water supplied by the Metropolitan Water District of Southern California. The District remained solely dependent on imported water until 2016 when an historic agreement was reached with the Orange County Water District. This agreement re-established the District's right to groundwater in the Santa Ana River Basin and ensures that more than half of the District's water supply is provided locally.

Today, the District's water supply is provided from a combination of local groundwater supplies and imported water from the Colorado River and Northern California. In our efforts to supply a reliable source of water for the community, the District continues to look into other water supply projects as future additional sources of water. The District provides water services to approximately 19,117 people within an 8.5 square mile area of southern Orange County, including portions of the City of Laguna Beach and Crystal Cove State Park.

On January 1, 2004, Emerald Bay Services District was de-annexed from the District's service area. This represents approximately 556 customers or 6% of the services served by the District and accounts for approximately 251 acre-feet of water provided by the District. The District continues to provide water service and administrative support through an agreement with Emerald Bay Services District.

The District's 8,190 service connections serve mostly residential water users. The District sells about 3,450 acre-feet of water annually. This is equal to approximately 1.12 billion gallons delivered on an annual basis. An acre-foot is enough water to cover a football field one-foot deep or serve two average-sized households for a year.

A network of 21 storage reservoirs, with a total storage capacity of 33.5 million gallons, is placed in five strategic pressure zones to provide regulation, emergency, and peak storage.

NOTE 1 - DESCRIPTION OF REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

b. Change in Organization

On June 29, 1997, the Board of Directors adopted Resolution No. 564. This resolution was directed toward an application submitted to the Local Agency Formation Commission of the County of Orange, California (LAFCO), for a change in organization, pursuant to the California Government Code. On September 2, 1998, LAFCO approved the District's application to become a subsidiary district of the City of Laguna Beach, which became effective November 1, 2000.

In determining the agencies or entities that comprise a governmental entity for financial reporting purposes, the criteria of oversight responsibility over such agencies or entities, special financial relationships, and scope of public service provided by the agencies or entities are used. Oversight responsibility is determined by the extent of financial interdependency, control over the selection of the governing authority and management, ability to significantly influence operations, and accountability for fiscal matters. Based on these criteria, the District is considered to be a component unit of the City of Laguna Beach, California, and all accounts and transactions of the District will be reported in the financial statements of the City of Laguna Beach. These financial statements, however, are presented for the District only.

c. Method of Accounting

The District reports its activities as an enterprise fund, which is used to account for operations that are financed and operated in a manner similar to a private business enterprise, where the intent of the District is that the costs (including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. Revenues and expenses are recognized on the accrual basis. Revenues are recognized in the accounting period in which they are earned, and expenses are recognized in the period incurred, regardless of when the related cash flow takes place.

Operating revenues, such as charges for services (water sales), result from exchange transactions associated with the principal activity of the District. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as property taxes and investment income, result from nonexchange transactions or ancillary activities in which the District gives (receives) value without directly receiving (giving) equal value in exchange.

When both restricted and unrestricted resources are available, it is the District's policy to use unrestricted resources first and then restricted resources as they are needed. As of June 30, 2018, the District had no restricted resources.

NOTE 1 - DESCRIPTION OF REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

d. Net Position Classifications

Net position of the District can be classified into three components defined as follows:

Net Investment in Capital Assets

This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation, and reduced by the outstanding balances of notes or borrowings that are attributable to the acquisition of the asset, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds is not included in the calculation of net investment in capital assets.

Restricted Net Position

This component of net position consists of constraints placed on net position use through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation. Currently, the District has no restrictions on net position.

Unrestricted Net Position

This component of net position consists of net position that does not meet the definition of "net investment in capital assets" or "restricted net position."

e. New Governmental Accounting Standards Board (GASB) Accounting Pronouncements:

Current Year Standards

In fiscal year 2017-2018, the District implemented Governmental Accounting Standards Board Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. This statement establishes standards for measuring and recognizing liabilities, deferred outflows of resources, deferred inflows of resources, and expenses for postemployment benefits other than pension. Accounting changes adopted to conform to the provisions of this statement should be applied retroactively. The result of the implementation of this statement increased the net position at July 1, 2017 by $185,022.

GASB 82 - *Pension Issues*, effective for periods beginning after June 15, 2016, except for certain provisions on selection of assumptions, which are effective in the first reporting period in which the measurement date of the pension liability is on or after June 15, 2017, and did not impact the District.

GASB 85 - *Omnibus 2017*, effective for periods beginning after June 15, 2017, and did not impact the District.

NOTE 1 - DESCRIPTION OF REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

e. New Governmental Accounting Standards Board (GASB) Accounting Pronouncements (Continued)

Current Year Standards (Continued)

GASB 86 - *Certain Debt Extinguishment Issues*, effective for periods beginning after June 15, 2017, and did not impact the District.

Pending Accounting Standards

GASB has issued the following statements, which may impact the District's financial reporting requirements in the future:

- GASB 83 - *Certain Asset Retirement Obligations*, effective for periods beginning after June 15, 2018.
- GASB 84 - *Fiduciary Activities*, effective for periods beginning after December 15, 2018.
- GASB 87 - *Leases*, effective for periods beginning after December 15, 2019.
- GASB 88 - *Certain Disclosures Related to Debt, Including Direct Borrowings and Direct Placements*, effective for periods beginning after June 15, 2018.
- GASB 89 - *Accounting for Interest Cost Incurred before the End of a Construction Period*, effective for periods beginning after December 15, 2019.

f. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources,* represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until that time. The District has the following items that qualify for reporting in this category:

- Deferred outflows related to pensions equal to employer contributions made after the measurement date of the net pension liability.
- Deferred outflows from pensions resulting from changes in assumptions. These amounts are amortized over a closed period equal to the average expected remaining service lives of all employees that are provided with pensions through the plans.

NOTE 1 - DESCRIPTION OF REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

f. Deferred Outflows/Inflows of Resources (Continued)

- Deferred outflows related to pensions for differences between actual and expected experiences. These amounts are amortized over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through the plans.

- Deferred outflows related to pension plans for the changes in employer's proportion and differences between the employer's contributions and the employer's proportionate share of contributions. These amounts are amortized over a closed period equal to the average of the expected remaining services lives of all employees that are provided with pensions through the plans.

- Deferred outflows related to pensions resulting from the net differences between projected and actual earnings on investments of the pension plans fiduciary net position. These amounts are amortized over five years.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources,* represents an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. The District has the following items that qualify for reporting in this category:

- Deferred inflows related to pensions for differences between actual and expected experiences. These amounts are amortized over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through the plans.

- Deferred inflows from pensions resulting from changes in assumptions. These amounts are amortized over a closed period equal to the average expected remaining service lives of all employees that are provided with pensions through the plans.

- Deferred inflows related to pension plans for the changes in the employer's proportion and differences between the employer's contributions and the employer's proportionate share of contributions. These amounts are amortized over a closed period equal to the average of the expected remaining services lives of all employees that are provided with pensions through the plans.

- Deferred outflow related to the OPEB plan resulting from changes in assumptions. This amount is amortized over a closed period equal to the average of the expected remaining services lives of all employees that are provided with retiree medical insurance through the plan.

NOTE 1 - DESCRIPTION OF REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

g. Investments

The District has stated investments at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Changes in fair value that occur during the fiscal year are recognized as part of investment income.

h. Cash and Cash Equivalents

For the purposes of the statement of cash flows and carrying value purposes, the District considers all highly liquid debt instruments purchased with maturity of three months or less to be cash equivalents.

i. Accounts Receivable

The District extends credit to customers in the normal course of operations. Management has evaluated the accounts and believes they are all collectible. Management evaluates all accounts receivable and, if it is determined that they are uncollectible, they are written off as bad debt expense. A charge of $10,873 was made to bad debt expense for the year ended June 30, 2018.

j. Inventory

Material inventory is valued at cost using the weighted-average method.

k. Capital Assets

Capital assets are stated at historical cost or at fair market value in the case of properties acquired by contribution. Contributed assets are recorded at acquisition value at the date of acquisition. Such costs include material, labor, engineering, supervision, payroll taxes, and employee benefits. District policy has set the capitalization threshold for reporting capital assets at $2,000. Expenditures for routine maintenance and repairs are charged to expense as incurred. Depreciation is computed on the straight-line basis over the estimated useful lives of the assets.

Estimated useful lives of the assets for financial reporting purposes are as follows:

Autos and trucks	4 - 10 years
Office furniture and equipment	10 years
Pumping plant	20 years
Meters and services	20 years
Source of supply	10 - 50 years
Transmission mains	20 - 50 years
Reservoirs and tanks	15 - 100 years

NOTE 1 - DESCRIPTION OF REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

l. Property Taxes

Property taxes in California are levied in accordance with Article XIIIA of the State Constitution at 1% of countywide-assessed valuations. This levy is allocated pursuant to state law to the appropriate units of local government.

The property tax calendar is as follows:

Lien date:	January 1
Levy date:	July 1
Due date:	First installment - November 11
	Second installment - February 11
Delinquent date:	First installment - December 12
	Second installment - April 9

Taxes are collected by the County of Orange and are remitted to the District periodically according to the following schedule (dates and percentages may vary slightly from year to year):

November 12	7%
December 2	13%
December 16	34%
January 13	2%
March 10	5%
April 21	36%
May 19	2%
July 14	1%

m. Pensions

For purposes of measuring the net pension liability, deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the District's California Public Employees' Retirement System (CalPERS) plans (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 1 - DESCRIPTION OF REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

o. Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the statement of net position date and reported amounts of revenues and expenses during the reporting period. Estimates are used to determine depreciation expense, the allowance for doubtful accounts, and certain liabilities. Actual results may differ from those estimates.

NOTE 2 - CASH AND INVESTMENTS

Cash and Investments

Cash and investments reported in the statement of net position as of June 30, 2018 are as follows:

Cash and cash equivalents	$ 3,973,133
Investments	12,140,010
Total cash and investments	$ 16,113,143

Cash and investments consisted of the following:

Cash on hand	$ 500
Deposits with financial institutions	560,468
Investments	15,552,175
Total cash and investments	$ 16,113,143

NOTE 2 - CASH AND INVESTMENTS (CONTINUED)

Investments Authorized by the California Government Code and the District's Investment Policy

The table below identifies the investment types that are authorized for the District by the California Government Code (or the District's investment policy, where more restrictive). The table also identifies certain provisions of the California Government Code (or the District's investment policy, where more restrictive) that address interest rate risk, credit risk, and concentration of credit risk.

Authorized Investment Type	Maximum Maturity	Maximum Percentage Allowed	Maximum Investment in One Issuer
United States Treasury Obligations	5 years	100%	None
United States Government Sponsored Agency Securities	5 years	100%	None
Banker's Acceptances Notes	180 days	40%	30%
Negotiable Certificates of Deposit	5 years	30%	None
Certificates of Deposit	5 years	100%	None
Commercial Paper	270 days	25%	10%
Medium-Term Corporate Notes	5 years	30%	None
Money Market Mutual Funds	N/A	20%	10%
Municipal Notes or Bonds	5 years	20%	$500,000
Local Agency Investment Fund (LAIF)	N/A	100%	$65,000,000

N/A - Not Applicable

Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the District manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

NOTE 2 - CASH AND INVESTMENTS (CONTINUED)

Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuations is provided by the following table that shows the distribution of the District's investments by maturity:

	Remaining Maturity (in Months)			
Investment Type	12 Months or Less	13 - 24 Months	25 - 60 Months	Total
United States Government-Sponsored Agency Securities	$ -	$ -	$ 682,299	$ 682,299
Negotiable Certificates of Deposit	149,270	99,152	4,393,548	4,641,970
Medium-Term Corporate Notes	538,324	580,411	3,134,632	4,253,367
Municipal Notes or Bonds	-	684,344	1,878,030	2,562,374
Local Agency Investment Fund (LAIF)	3,412,165	-	-	3,412,165
Total	$ 4,099,759	$ 1,363,907	$ 10,088,509	$ 15,552,175

Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum legal rating required by (where applicable) the California Government Code, the District's investment policy, and Standard & Poor's credit ratings as of year-end for each investment type.

Investment Type	Total	Minimum Legal Rating	AA+	Other	Unrated
United States Government-Sponsored Agency Securities	$ 682,299	N/A	$ 682,299	$ -	$ -
Negotiable Certificates of Deposit (1)	4,641,970	N/A	-	-	4,641,970
Medium-Term Corporate Notes	4,253,367	A	-	4,253,367	-
Municipal Notes or Bonds	2,562,374	A	231,083	2,331,291	-
Local Agency Investment Fund (LAIF)	3,412,165	N/A	-	-	3,412,165
Total	$ 15,552,175		$ 913,382	$ 6,584,658	$ 8,054,135

N/A - Not Applicable
(1) Certificates of Deposit are insured by the Federal Deposit Insurance Corporation.

NOTE 2 - CASH AND INVESTMENTS (CONTINUED)

Disclosures Relating to Credit Risk (Continued)

The ratings for the “Other” category above are as follows:

	MTN	MNB
Other:		
AA	$ -	$ 1,859,891
AA-	727,775	471,400
A+	629,119	-
A	2,290,966	-
A-	605,507	-
	$ 4,253,367	$ 2,331,291

Concentration of Credit Risk

The investment policy of the District contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code. At June 30, 2018, there were no investments in one issuer that represented 5% or more of total District’s investments.

Custodial Credit Risk

Custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for *investments* is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the District’s investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit).

The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies.

California law also allows financial institutions to secure District deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits. At June 30, 2018, all of the District’s deposits are insured or collateralized.

NOTE 2 - CASH AND INVESTMENTS (CONTINUED)

Investment in State Investment Pool

The District is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California. The fair value of the District's investment in this pool is reported in the accompanying financial statements at amounts based upon the District's pro rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis.

Fair Value Measurements

The District categorizes its fair value measurement within the fair value hierarchy established by accounting principles generally accepted in the United States of America. The hierarchy is based on the valuation inputs used to measure the fair value of the assets. Level 1 inputs are quoted prices in active markets for identical assets, Level 2 inputs are quoted prices for similar assets in active markets, and Level 3 inputs are significant unobservable inputs.

Deposits and securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Deposits and securities classified in Level 2 of the fair value hierarchy are valued using institutional quotes.

The District has the following recurring fair value measurements as of June 30, 2018:

	Quoted Prices Level 1	Observable Inputs Level 2	Unobservable Inputs Level 3	Total
United States Government-Sponsored Agency Securities	$ -	$ 682,299	$ -	$ 682,299
Negotiable Certificates of Deposit	-	4,641,970	-	4,641,970
Medium-Term Corporate Notes	-	4,253,367	-	4,253,367
Municipal Notes or Bonds	-	2,562,374	-	2,562,374
Total Leveled Investments	$ -	$ 12,140,010	$ -	12,140,010
Local Agency Investment Fund (LAIF)*				3,412,165
Total Investment Portfolio				$ 15,552,175

* Not subject to fair value measurement hierarchy.

NOTE 3 - NOTES RECEIVABLE

Related-Party Notes Receivable

On April 23, 2002, the Board of Directors approved a loan to the District's general manager for purchase of a residence, the location of which is restricted within the parameters listed in the agreement. The loan was funded on August 15, 2002. The loan is payable in biweekly payments, beginning on the first day of October 2002, and amortized over a period of 25 years. Interest rate is variable and every six months after the date of the agreement, the District may increase or decrease the interest rate specified in the agreement, should the monthly average LAIF rate increase or decrease by more than 0.5% from the initial rate at the end of any six month period, the loan shall be adjusted accordingly. The loan is secured by a deed of trust on the residence. At June 30, 2018, the outstanding balance on the note was $163,463.

The following is a schedule of principal and interest payments due on the related-party notes receivable:

Year Ending June 30,	Principal	Interest	Total
2019	$ 21,091	$ 2,833	$ 23,924
2020	21,398	2,526	23,924
2021	21,709	2,215	23,924
2022	22,025	1,899	23,924
2023	22,345	1,579	23,924
2024 - 2027	54,895	2,784	57,679
Totals	$ 163,463	$ 13,836	$ 177,299

NOTE 4 - CAPITAL ASSETS

The following is a summary of changes in capital assets at June 30, 2018:

	Balance at June 30, 2017	Additions	Deletions/ Transfers	Balance at June 30, 2018
Capital assets, not being depreciated:				
Land and land rights	$ 4,517,179	$ -	$ -	$ 4,517,179
Construction in progress	3,935,673	2,698,548	(5,812,143)	822,078
Total capital assets, not being depreciated	8,452,852	2,698,548	(5,812,143)	5,339,257
Capital assets, being depreciated:				
Source of supply plant	9,897,089	-	-	9,897,089
Pumping plant	6,590,027	92,466	-	6,682,493
Transmission and distribution system	62,202,772	5,115,090	-	67,317,862
General plant and equipment	12,025,315	604,587	-	12,629,902
Total capital assets, being depreciated	90,715,203	5,812,143	-	96,527,346
Less accumulated depreciation:				
Source of supply plant	(5,962,013)	(218,119)	-	(6,180,132)
Pumping plant	(5,008,417)	(177,109)	-	(5,185,526)
Transmission and distribution system	(24,580,731)	(1,484,977)	-	(26,065,708)
General plant and equipment	(9,081,512)	(390,584)	-	(9,472,096)
Total accumulated depreciation	(44,632,673)	(2,270,789)	-	(46,903,462)
Total capital assets, being depreciated, net	46,082,530	3,541,354	-	49,623,884
Total capital assets, net	$ 54,535,382	$ 6,239,902	$ (5,812,143)	$ 54,963,141

NOTE 5 - COMPUTER LOANS TO EMPLOYEES

In March 1999, the District started the Employee Personal Computer Purchase Plan to encourage computer literacy of full-time District employees through the purchase and use of personal computers and software. Any full-time employee in good standing who has completed the probationary period and agrees to the provisions of the plan is eligible for a maximum 24-month noninterest loan of $2,000. The District has allocated a limit of $50,000 for this program. Outstanding balances as of June 30, 2018 are $10,987.

NOTE 6 - COMPENSATED ABSENCES

The District has accrued the potential liability for accrued vacation pay totaling $336,581 as of June 30, 2018. Employees earn vacation and sick leave each month at various rates depending on length of service. Sick leave can be accumulated and rolled over into the retirement plan (see Note 7). The CalPERS's system includes an estimate for this amount in its actuarial calculations. There is no material amount of sick leave accrued that is not provided for by CalPERS calculation; therefore, no sick leave amount has been accrued in the District's financial statements.

NOTE 7 - RETIREMENT PLAN

a. General Information about the Pension Plan:

Plan Description

All qualified permanent and probationary employees are eligible to participate in the District's Miscellaneous Employee Pension Plan, which is a cost-sharing multiple-employer defined benefit pension plan administered by the California Public Employees' Retirement System (CalPERS). Benefit provisions under the pension plans are established by state statute and District resolution. CalPERS issues publicly available reports that include a full description of the pension plan regarding benefit provisions, assumptions, and membership information that can be found on the CalPERS's website.

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full-time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for nonduty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for each plan are applied as specified by the California Public Employees' Retirement Law.

NOTE 7 - RETIREMENT PLAN (CONTINUED)

a. General Information about the Pension Plan (Continued)

Benefits Provided (Continued)

The pension plan's provisions and benefits in effect for the year ended June 30, 2018 are summarized as follows:

	Miscellaneous	
Hire date	Prior to January 1, 2013	On or After January 1, 2013
Benefit formula	2%@55	2%@62
Benefit vesting schedule	5 years of service	5 years of service
Benefit payments	Monthly for life	Monthly for life
Retirement age	50-63	52-67
Monthly benefits, as a % of eligible compensation	1.426% to 2.418%	1.0% to 2.5%
Required employee contribution rates	7.00%	6.25%
Required employer contribution rates:		
Normal cost rate	8.921%	6.533%
Payment of unfunded liability	$ 220,039	$ 138

Contributions

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through CalPERS' annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. District contribution rates may change if plan contracts are amended. Payments made by the employer to satisfy contribution requirements that are identified by the pension plan terms as plan member contributions requirements are classified as plan member contributions

NOTE 7 - RETIREMENT PLAN (CONTINUED)

b. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions

Contributions (Continued)

As of June 30, 2018, the District reported net pension liabilities for its proportionate share of the net pension liability of all plans as follows:

	Proportionate Share of Net Pension Liability
Miscellaneous	$ 5,924,716

The District's net pension liability for the pension plan is measured as the proportionate share of the net pension liability. The net pension liability of the pension plan is measured as of June 30, 2017, and the total pension liability for the pension plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2016, rolled forward to June 30, 2017, using standard update procedures. The District's proportionate share of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined.

The District's proportionate share of the net pension liability for the plan as of the measurement date June 30, 2016 and 2017 was as follows:

	Miscellaneous
Proportion - June 30, 2016	0.14397%
Proportion - June 30, 2017	0.15030%
Change - Increase (Decrease)	0.00633%

NOTE 7 - RETIREMENT PLAN (CONTINUED)

b. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions

Contributions (Continued)

For the year ended June 30, 2018, the District recognized pension expense of $866,715. At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension contributions subsequent to measurement date	$ 561,814	$ -
Differences between actual and expected experience	8,579	(122,911)
Change in assumptions	1,064,458	(81,166)
Change in employer's proportion and differences between the employer's contributions and the employer's proportionate share of contributions	29,824	(299,980)
Net differences between projected and actual earnings on plan investments	240,737	-
Total	$ 1,905,412	$ (504,057)

$561,814 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Year Ending June 30,	Amount
2018	$ 55,776
2019	589,211
2020	337,483
2021	(142,929)
2022	-
Thereafter	-

NOTE 7 - RETIREMENT PLAN (CONTINUED)

b. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions

Actuarial Assumptions

For the measurement period ended June 30, 2017 (the measurement date), the total pension liability was determined by rolling forward the June 30, 2016 total pension liability determined in the June 30, 2016 actuarial accounting valuation. The June 30, 2017 total pension liability was based on the following actuarial methods and assumptions:

	Miscellaneous
Valuation Date	June 30, 2016
Measurement Date	June 30, 2017
Actuarial Cost Method	Entry-Age Normal Cost Method
Actuarial Assumptions:	
Discount Rate	7.15%
Inflation	2.75%
Projected Salary Increase	(1)
Mortality	(2)
Post Retirement Benefit Increase	(3)

(1) Depending on age, service and type of employment
(2) The mortality table used was developed based on CalPERS-specific data. The table includes 20 years of mortality improvements using Society of Actuaries Scale BB. For more details on this table, please refer to the April 2014 experience study report (based on CalPERS demographic data from 1997 to 2011) available on the CalPERS website.
(3) Contract COLA up to 2.75% until Purchasing Power Protection Allowance Floor on Purchasing Power applies, 2.75% thereafter.

All other actuarial assumptions used in the June 30, 2016 valuation were based on the results of an actuarial experience study for the period from 1997 to 2011, including updates to salary increase, mortality, and retirement rates. The Experience Study report can be obtained at the CalPERS's website under Forms and Publications.

Change of Assumptions

In fiscal year 2017-2018, the financial reporting discount rate was reduced from 7.65% to 7.15%. Deferred outflows of resources and deferred inflows of resources for changes of assumptions represent the unamortized portion of this assumption change and the unamortized portion of the changes of assumptions related to prior measurement periods.

NOTE 7 - RETIREMENT PLAN (CONTINUED)

b. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions (Continued)

Discount Rate

The discount rate used to measure the total pension liability was 7.15% for each plan and reflects the long-term expected rate of return for the each plan net of investment expenses and without reduction for administrative expenses. To determine whether the municipal bond rate should be used in the calculation of a discount rate for each plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans ran out of assets. Therefore, the current 7.15% discount rate is appropriate and the use of the municipal bond rate calculation is not deemed necessary. The long-term expected discount rate of 7.15% will be applied to all plans in the Public Employees Retirement Fund (PERF). The cash flows used in the testing were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. The stress test results are presented in a detailed report called "GASB Crossover Testing Report" that can be obtained from the CalPERS website under the GASB 68 section

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations, as well as the expected pension fund (PERF) cash flows. Taking into account historical returns of all the Public Employees Retirement Funds' asset classes (which includes the agent plan and two cost-sharing plans or PERF A, B, and C funds), expected compound (geometric) returns were calculated over the short term (first 10 years) and the long term (11-60 years) using a building-block approach. Using the expected nominal returns for both short term and long term, the present value of benefits was calculated for each PERF fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

NOTE 7 - RETIREMENT PLAN (CONTINUED)

b. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions (Continued)

Discount Rate (Continued)

The table below reflects the long-term expected real rate of return by asset class. The rate of return was calculated using capital market assumptions applied to determine the discount rate and asset allocation. The target allocation shown was adopted by CalPERS Board of Directors effective on July 1, 2014.

Asset Class	New Strategic Allocation	Real Return Years 1 - 10 (a)	Real Return Years 11+ (b)
Global Equity	47.00%	4.90%	5.38%
Global Fixed Income	19.00%	0.80%	2.27%
Inflation Sensitive	6.00%	0.60%	1.39%
Private Equity	12.00%	6.60%	6.63%
Real Estate	11.00%	2.80%	5.21%
Infrastructure and Forestland	3.00%	3.90%	5.36%
Liquidity	2.00%	-0.40%	-0.90%
Total	100.00%		

(a) An expected inflation of 2.5% used for this period
(b) An expected inflation of 3.0% used for this period

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability for the pension plan, calculated using the discount rate for the pension plan, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

	Miscellaneous
1% Decrease	6.15%
Net Pension Liability	$ 9,433,476
Current Discount Rate	7.15%
Net Pension Liability	$ 5,924,716
1% Increase	8.15%
Net Pension Liability	$ 3,018,698

NOTE 7 - RETIREMENT PLAN (CONTINUED)

b. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions (Continued)

Pension Plan's Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued CalPERS financial reports.

c. Payable to the Pension Plan

At June 30, 2018, the District had no outstanding amount of contributions to the pension plan required for the year ended June 30, 2018.

NOTE 8 - OTHER POST-EMPLOYMENT BENEFITS (OPEB)

a. General Information about the OPEB Plan

Plan Description and Benefits Provided

The District, through a single-employer defined benefit plan, provides post-employment health-care benefits. Specifically, the District provides health insurance for its retired employees and their dependent spouses (if married and covered on the District's plan at time of retirement). Medical coverage is provided for retired employees who are in an age range of 60 until the age of 65 is reached and who have served the District on a full-time basis for ten continuous years. The employee must have participated in the District's CalPERS plan during their tenure with the District. The employee must have applied for and be receiving service retirement benefits pursuant to the terms and conditions of the District's CalPERS plan. The District pays 100% of the plan premium for retiree coverage from the date of retirement until the date the retired employee becomes eligible to receive Medicare benefits. Coverage for a retired employee's spouse under the health insurance plan is at the sole cost of the employee. The District's obligation to provide benefits ceases upon death of retiree or Medicare eligibility, whichever is earlier. The plan does not provide a publicly available financial report.

Employees Covered

As of the June 30, 2018 actuarial valuation, the following current and former employees were covered by the benefit terms under the plan:

Inactive plan members or beneficiaries currently receiving benefits	4
Inactive plan members entitled to but not yet receiving benefits	-
Active employees	38
Total	42

NOTE 8 - OTHER POST-EMPLOYMENT BENEFITS (OPEB) (CONTINUED)

a. General Information about the OPEB Plan

Contributions

The contribution requirements of plan members and the District are established and may be amended by the District and/or the District's Board of Directors. Currently, contributions are not required from plan members. The District is currently funding this OPEB obligation on a pay-as-you-go basis due to the insignificant amount that the District is paying each year. For the fiscal year ended June 30, 2018, the District's cash contributions were $55,173 for retiree health insurance premiums.

b. Total OPEB Liability

The District's net OPEB liability was measured as of June 30, 2018, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation dated June 30, 2018. A summary of the principal assumptions and methods used to determine the total OPEB liability is shown below.

Actuarial Assumptions

The total OPEB liability in the June 30, 2018, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless other specified:

Valuation Date	June 30, 2018
Measurement Date	June 30, 2018
Actuarial Cost Method	Entry-Age Normal Cost Method
Actuarial Assumptions:	
Discount Rate	3.50%
Inflation	2.75%
Payroll Increases	3.00% per annum, in aggregate
Long-Term Expected	
Rate of Return on Investments	Not applicable since the District has not established an irrevocable trust for pre-funding the OPEB
Healthcare Cost Trend Rates	6.5% in 2019, decreasing in decrements of 0.5% until reaching 5.0% in 2022
Pre-retirement Turnover	Derived from the most recent CalPERS pension plan valuation
Pre-retirement Mortality	Derived from the most recent CalPERS pension plan valuation
Retirement Rates	Retirements rates under the most recent CalPERS Public Aency Miscellaneous 2.0% @ 55 for actives hired before January 1, 2013 and 2.0% @ 62 for actives hired after January 1, 2013

NOTE 8 - OTHER POST-EMPLOYMENT BENEFITS (OPEB) (CONTINUED)

b. Total OPEB Liability (Continued)

Actuarial Assumptions (Continued)

The actuarial assumptions used in the June 30, 2018, valuation were based on a standard set of assumptions the actuary has used for similar valuations, modified as appropriate for the District.

Discount Rate

The discount rate used to measure the total OPEB liability was 3.5%. The discount rate was the average, rounded to 5 basis points, of the range of 3-20 year municipal bond rate indices as of June 30, 2018, the date of the actuarial valuation: S&P Municipal Bond 20 Year High Grade Rate Index, Bond Buyer 20-Bond GO Index, Fidelity GO AA 20 Year Bond Index.

c. Changes in the Net OPEB Liability

	Total OPEB Liability
Balance at June 30, 2017 (Measurement Date)	$ 740,893
Changes in the Year:	
Service cost	32,851
Interest on the total OPEB liability	25,369
Changes in assumptions	(6,184)
Benefit payments	(55,173)
Net Changes	(3,137)
Balance at June 30, 2018 (Measurement Date)	$ 737,756

Change of Assumptions

In the July 1, 2015 actuarial valuation, which was based on the requirements of GASB 45, the actuarial assumptions included a 4% investment rate of return and a health-care trend rate of 8% in 2015, decreasing in decrements of 1% until reaching 5% in 2018. In the June 30, 2018 actuarial valuation, which was based on the requirements of GASB 75, the actuarial assumptions included a discount rate of 3.5% and a health care trend rate of 6.5% in 2019, decreasing in decrements of 0.5% until reaching 5.0% in 2022.

NOTE 8 - OTHER POST-EMPLOYMENT BENEFITS (OPEB) (CONTINUED)

b. Total OPEB Liability (Continued)

Changes of Benefit Terms

There were no changes of benefit terms.

Subsequent Events

There were no subsequent events that would materially affect the results presented in this disclosure.

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability of the District, as well as what the District's net OPEB liability would be if it were calculated using a discount rate that is 1-percentage point lower (2.5%) or 1-percentage point higher (4.5%) than the current discount rate:

	1% Decrease (2.5%)	Discount Rate (3.5%)	1% Increase (4.5%)
Net OPEB Liability	$ 801,472	$ 737,756	$ 678,367

Sensitivity of the Net OPEB Liability to Changes in the Health-Care Cost Trend Rates

The following presents the net OPEB liability of the District, as well as what the District's net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage point lower (5.5% HMO/PPO decreasing to 4.0% HMP/PPO) or 1-percentage point higher (7.5% HMO/PPO decreasing to 6.0% HMP/PPO) than the current healthcare cost trend rates:

	1% Decrease (5.5% HMO/PPO decreasing to 4.0% HMO/PPO)	Current Healthcare Cost Trend Rates (6.5% HMO/PPO decreasing to 5.0% HMO/PPO)	1% Increase (7.5% HMO/PPO decreasing to 6.0% HMO/PPO)
Net OPEB Liability	$ 656,669	$ 737,756	$ 833,335

NOTE 8 - OTHER POST-EMPLOYMENT BENEFITS (OPEB) (CONTINUED)

d. OPEB Expense and Deferred Outflows/Inflows of Resources Related to OPEB

For the year ended June 30, 2018, the District recognized OPEB expense of $57,447. At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Change in assumptions	$ -	$ 5,411

The change in assumptions are amortized over the expected average remaining service life. The expected average remaining service life for the 2017-18 measurement period is 8 years. This will be recognized as OPEB expense as follows:

Year Ending June 30,	Amount
2019	$ (773)
2020	(773)
2021	(773)
2022	(773)
2023	(773)
Thereafter	(1,546)

e. Payable to the OPEB Plan

At June 30, 2018, the District had no outstanding amount of contributions to the OPEB plan required for the year ended June 30, 2018.

NOTE 9 - WATER RIGHT FEE PAYABLE

On January 20, 2016, the District entered into an agreement with the Orange County Water District (OCWD) regarding the District's groundwater production within the OCWD groundwater basin. Pursuant to the agreement, the District obtained the right to annually produce 2,025 acre-feet of groundwater for $3,100,000. This fee is to be paid in five equal installments of $620,000 commencing within 10 days of the District extracting groundwater. As of June 30, 2018, the total amount due is $1,860,000.

NOTE 10 - UNRESTRICTED NET POSITION

Certain amounts shown as unrestricted net position have been designated per District policy and by Board of Directors (Board) action to be used for specified purposes as listed below:

Board-designated amounts:	
Operating reserve fund	$ 1,922,908
Self-insurance/emergency reserve fund	1,963,178
Rate stabilization reserve fund	793,180
Employee liabilities	509,041
Capital replacement	4,072,200
Total Board-designated amounts	9,260,507
Undesignated	2,413,688
Total unrestricted net position	$ 11,674,195

NOTE 11 - RISK MANAGEMENT

The District is a member of the Association of California Water Agencies Joint Powers Insurance Authority (Insurance Authority). The Insurance Authority is a risk-pooling self-insurance authority, created under provisions of California Government Code Sections 6500 et seq. The purpose of the Authority is to arrange and administer programs of insurance for the pooling of self-insured losses and to purchase excess insurance coverage.

At June 30, 2018, the District participated in the self-insurance programs of the Insurance Authority as follows:

Property Loss - The Insurance Authority has pooled self-insurance up to $100,000 per occurrence and has purchased excess insurance coverage of $500,000,000 (total insurable value of $16,858,936). The District has a $2,500 deductible for buildings, personal property, fixed and mobile equipment, and licensed vehicles and deductibles ranging from $25,000 to $50,000 based on type of equipment for boiler and machinery.

General Liability - The Insurance Authority has pooled self-insurance up to $5,000,000 per occurrence and has purchased excess insurance coverage of $60,000,000.

Auto Liability - The Insurance Authority has pooled self-insurance up to $5,000,000 per occurrence and has purchased excess insurance coverage of $60,000,000.

Public Officials' Liability - The Insurance Authority has pooled self-insurance up to $5,000,000 per occurrence and has purchased excess insurance coverage of $60,000,000.

Crime Bond - The Insurance Authority has pooled self-insurance up to $100,000 per occurrence. The District did not purchase excess insurance coverage. The District has a $1,000 deductible.

NOTE 11 - RISK MANAGEMENT (CONTINUED)

Workers' Compensation - The Insurance Authority has pooled self-insurance up to $2,000,000 and has purchased excess insurance coverage to the statutory limits.

Underground Storage Tank Pollution Liability - The Insurance Authority has pooled self-insurance up to $500,000 and has purchased excess insurance coverage of $3,000,000 with a $750,000 aggregate limit. The District has a $10,000 deductible.

The District has also purchased $175,000 of coverage for an employee dishonesty bond from a separate agency.

The District pays annual premiums for the coverages. There were no instances in the past three years when a settlement exceeded the District's coverage.

NOTE 12 - OPERATING LEASES

As of June 30, 2018, the District has operating leases with various communication companies to rent space on District-occupied property. Rental income from these leases for the year ended June 30, 2018 totaled $407,247. Future minimum receipts from these operating leases are as follows:

2019	$ 411,430
2020	427,632
2021	408,198
2022	313,033
2023	230,107
	$ 1,790,400

NOTE 13 - RESTATEMTENT OF NET POSITION

Beginning balances of net position as of July 1, 2017, have been restated as follows:

Net position at July 1, 2017 as originally reported	$ 63,287,939
Implementation of GASB Statement 75 to record the net OPEB liability at the beginning of the year	185,022
Net position at July 1, 2017 as restated	$ 63,472,961

NOTE 14 - SUBSEQUENT EVENTS

Events occurring after June 30, 2018 have been evaluated for possible adjustments to the financial statements or disclosure as of October 26, 2018, which is the date these financial statements were available to be issued.

REQUIRED SUPPLEMENTARY INFORMATION

LAGUNA BEACH COUNTY WATER DISTRICT

SCHEDULE OF PROPORTIONATE SHARE OF THE NET PENSION LIABILITY

Last Ten Fiscal Years*

Fiscal Year Ended	June 30, 2018	June 30, 2017	June 30, 2016	June 30, 2015
Measurement Period Ended	June 30, 2017	June 30, 2016	June 30, 2015	June 30, 2014
Plan's Proportion of the Net Pension Liability	0.05974%	0.05780%	0.05225%	0.05444%
Plan's Proportionate Share of the Net Pension Liability	$ 5,924,716	$ 5,001,411	$ 3,586,114	$ 3,387,510
Plan's Covered Employee Payroll	$ 3,828,081	$ 3,633,568	$ 3,403,024	$ 3,465,886
Plan's Proportionate Share of the Net Pension Liability as a Percentage of its Covered Employee Payroll	154.77%	137.64%	105.38%	97.74%
Plan's Proportionate Share of the Fiduciary Net Position as a Percentage of the Plan's Total Pension Liability	73.31%	74.06%	78.40%	83.52%
Plan's Proportionate Share of Aggregate Employer Contributions	$ 741,019	$ 669,441	$ 437,758	$ 464,098

Notes to Schedule:

Benefit Changes:
There were no changes in benefits.

Changes in Assumptions:
From fiscal year June 30, 2015 to June 30, 2016:
GASB 68, paragraph 68 states that the long-term expected rate of return should be determined net of pension plan investment expense but without reduction for pension plan administrative expense. The discount rate of 7.50% used for the June 30, 2014 measurement date was net of administrative expenses. The discount rate of 7.65% used for the June 30, 2015 measurement date is without reduction of pension plan administrative expense.

From fiscal year June 30, 2016 to June 30, 2017:
There were no changes in assumptions.

From fiscal year June 30, 2017 to June 30, 2018:
The discount rate was reduced from 7.65% to 7.15%.

* - Fiscal year 2015 was the 1st year of implementation, therefore only four years are shown.

LAGUNA BEACH COUNTY WATER DISTRICT

SCHEDULE OF CONTRIBUTIONS - DEFINED BENEFIT PENSION PLAN

Last Ten Fiscal Years*

Fiscal year ended	June 30, 2018	June 30, 2017	June 30, 2016	June 30, 2015
Contractually required contribution (actuarially determined)	$ 561,814	$ 502,006	$ 447,696	$ 341,282
Contributions in relation to the actuarially determined contributions	(561,814)	(502,006)	(447,696)	(341,282)
Contribution deficiency (excess)	$ -	$ -	$ -	$ -
Covered - employee payroll	$ 4,015,049	$ 3,828,081	$ 3,633,568	$ 3,403,024
Contributions as a percentage of covered - employee payroll	13.99%	13.11%	12.32%	10.03%

Notes to Schedule:

Valuation Date	6/30/2015	6/30/2014	6/30/2013	6/30/2012

Methods and Assumptions Used to Determine Contribution Rates:

Cost-sharing employers	Entry age**
Amortization method	Level percentage of payroll, closed**
Asset valuation method	Market value***
Inflation	2.75%**
Salary increases	Depending on age, service, and type of employment**
Investment rate of return	7.50%, net of pension plan investment expense, including inflation**
Retirement age	50 years (2%@55 and 2%@60), 52 years (2%@62) **
Mortality	Mortality assumptions are based on mortality rates resulting from the most recent CalPERS Experience Study adopted by the CalPERS Board.**

* - Fiscal year 2015 was the 1st year of implementation, therefore only four years are shown.

** - The valuation for June 30, 2012, 2013, and 2014 (applicable to fiscal years ended June 30, 2015, 2016, and 2017 respectively) included the same actuarial assumptions.

*** - The valuation for June 30, 2012 (applicable to fiscal year ended June 30, 2015) valued assets using a 15 Year Smoothed Market method. The market value asset valuation method was utilized for the June 30, 2013, 2014, and 2015 valuations (applicable to fiscal years ended June 30, 2016, 2017, and 2018 respectively).

* Fiscal year 2018 was the first year of implementation; therefore, only one year is shown.

WHITE NELSON DIEHL EVANS LLP
Certified Public Accountants & Consultants

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

The Board of Directors
Laguna Beach County Water District
Laguna Beach, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States, the financial statements of Laguna Beach County Water District (the District) as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated October 26, 2018.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Offices located in Orange and San Diego Counties

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we have reported to management and the Board of Directors in a separate letter dated October 26, 2018.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
